

Follow the evidence. Supervise the work. Keep professional control.

Source-linked legal intelligence and supervised legal teamwork, connected in one governed matter.

Source-linked evidence

-  Case law
-  Legislation
-  Documents
-  Chronology

Supervised workflow

-  Solicitor 
-  Paralegal 
-  Trainee 

THE ADVANTAGE IS THE CONNECTION

Not just AI answers. A connected route from documentary investigation through changing evidence, junior preparation and solicitor review.

01 | SOURCE-LINKED INVESTIGATION

Investigate supporting and contradictory material. Inspect original citations, chronology and gaps.

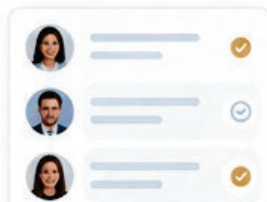

02 | DOCUMENT LINEAGE & IMPACT

Preserve document versions and identify connected issues and tasks that may need reassessment.

03 | JUNIOR WORKSPACE

Assign evidence-led preparation, request corrections and retain versioned submissions for review.

04 | PROFESSIONAL GOVERNANCE

Keep AI assistance, junior work and authorised professional approval distinct and traceable.

A WORKING METHOD, NOT ANOTHER CHATBOT

One matter. Connected evidence. Visible supervision.

From a disputed proposition to reviewed legal work, every step remains connected to the material that supports, qualifies or challenges it.

NEW / CONNECTED ASK-TO-WORK

RESEARCH. RECORD. REVIEW.

Source-linked legal intelligence now flows into existing Issues, Tasks and supervisor review.

Connected matter work

-  Evidence
-  Chronology
-  Documents
-  Related work

THE COMMERCIAL ADVANTAGE

From a useful AI answer to accountable team work.

One matter. One connected route from evidence investigation to supervised preparation.

01

INVESTIGATE

Ask examines source material, including competing accounts and uncertainty.

02

ATTACH

Save a governed answer directly to an existing Issue or Task.

03

TRACE

Keep the answer, source references, versions and signed work record.

04

SUPERVISE

A separate authorised reviewer can challenge or return work.

LIVE WORKFLOW / VERIFIED WITH FICTIONAL CASE MATERIAL

One investigation. Two saved destinations.

Occupational-health evidence was investigated in Ask, then saved to both an existing Task and related Issue. Each save was recorded in signed work history.

SELF-REVIEW WAS BLOCKED / PROFESSIONAL APPROVAL WAS NOT GRANTED

WHAT THIS CHANGES FOR YOUR TEAM

LESS HANDOFF FRICTION

Research can be attached to the work it informs.

CLEARER OVERSIGHT

Supervisors see pending work and its evidence.

VISIBLE CONTROL

Revisions and review activity remain traceable.

See the connected workflow in action.

Explore a synthetic matter before a scoped, evidence-led pilot.
